

Product Profiles

100 Day RM

2232 GenSSR

SmartStax
RIB COMPLETE

- Stable, consistent yielder in variable conditions
- Performs best at higher plant populations
- Very good stress tolerance
- Excellent roots and stalks
- Very good overall plant health and intactness

PLANT CHARACTERISTICS

Relative Flowering	Early	Drydown	9
Ear Type	SD	Yield for Maturity	9
Early Vigor	8	Stalk Strength	8
Plant Height	M	Root Strength	9
Ear Height	M	Test Weight	8
Stay Green	8	Cob Color	Red

MANAGEMENT CONSIDERATIONS

Maturity Zone	1&2	Light Soils	8
Drought Tolerance	8	Medium Soils	9
Corn on Corn	8	Dark Soils	9
Population Range	32-36	Poorly Drained Soil	9
Resp. to High Pop	MH	Nitrogen Utiliz.	Early
Green Snap Tol.	8	Silage Rating	8
Narrow Rows	9	Sulphonurea Sens.	N

PLANT HEALTH

Anthracnose	9	Gray Leaf Spot	7
SCLB	N/A	Eyespot	9
NCLB	8	Goss's Wilt	9
Fungicide Resp.	MH		

Ear Height: ML = Medium Low, M = Medium, MH = Medium High

Stay Green: means late-season plant health

Relative Flowering: Flowering period as compared to similar RM maturity hybrids; Early, Medium or Late

Sulphonurea Sensitivity: N = Normal tolerance to rimsulfuron-containing herbicides when label directions are followed

Response to High Population: ML= Moderately Low, M = Moderate, MH = Moderately High, H = High
