

## Product Profiles

107 Day RM

## 2690 GenSSR

- Outstanding SmartStax® RIB hybrid
- Very high yield potential for maturity
- Excellent plant health and Stay Green
- Higher than average test weight
- Very good Goss's Wilt tolerance

### PLANT CHARACTERISTICS

Relative Flowering	Early	Drydown	8
Ear Type	SF	Yield for Maturity	9
Early Vigor	9	Stalk Strength	8
Plant Height	M	Root Strength	8
Ear Height	M	Test Weight	9
Stay Green	8	Cob Color	Red

### MANAGEMENT CONSIDERATIONS

Maturity Zone	2,3&4	Light Soils	9
Drought Tolerance	8	Medium Soils	9
Corn on Corn	9	Dark Soils	8
Population Range	30-36	Poorly Drained Soil	7
Resp. to High Pop	H	Nitrogen Utiliz.	Even
Green Snap Tol.	9	Silage Rating	8
Narrow Rows	9	Sulphonurea Sens.	N

### PLANT HEALTH

Anthraco nose	8	Gray Leaf Spot	8
SCLB	9	Eyespot	9
NCLB	9	Goss's Wilt	9
Fungicide Resp.	M		

Ear Height: ML = Medium Low, M = Medium, MH = Medium High

Stay Green: means late-season plant health

Relative Flowering: Flowering period as compared to similar RM maturity hybrids; Early, Medium or Late

Sulphonurea Sensitivity: N = Normal tolerance to rimsulfuron-containing herbicides when label directions are followed

Response to High Population: ML = Moderately Low, M = Moderate, MH = Moderately High, H = High
